

# Vegetable Garden Coaching

Our coaching is unique as we work alongside you, teaching you how to maintain your garden from planting to harvest, rather than working independently from you.

Our services are a la carte. We can provide weekly service from seed to harvest, or can come in as required for services you may not feel confident doing alone (ie pruning plants).

## 1 Hour Garden Assessment

During this 1 hour, on site meeting we will discuss what you hope to accomplish in your garden. Whether your space is a blank slate, or you have gardens in place, we will discuss your garden goals and provide preliminary advice and product recommendations.

We will provide you with a questionnaire that we can complete together, or can be returned to us which will help guide you if you are not sure what your final goals are.

*All rates are inclusive of travel time, gas and mileage*

# Our Rates

## 1 Hour Follow Up Meeting

During the 1 hour, on site meeting we will work on a specific task, as requested by you. This can be starting a garden, planting seedlings, pruning and maintaining a midsummer garden, pest control, or harvesting.

These meetings are directed by your questions and what you need help with in order to progress your garden skills and provide you the confidence to maintain your garden.

**\$100**

# Our Rates

## 30 min Virtual Follow Up Meeting

These meetings are for those who have a few questions that they need help with or for those outside of the Ottawa area, held online for 30 minutes at a time.

Additional time can be added on as required, however as this is virtual and less hands on, we will likely cover more in less time.

**\$50**
